Vessel inspected and fumigated	1
Bills of health issued	5
Passengers, cabin, in transit	5
Crews inspected	141
Immune certificates issued	0

The British steamship *Russian Prince*, from New York, bound for New Orleans, was fumigated by this office during the week. On inspection all temperatures of her crew were found normal and the vessel was in good condition.

On May 3 a supplemental bill of health was granted to the British steamship *Casilda*, proceeding from South American Atlantic ports and San Juan, P. R., and bound for Boston via Cuban ports. She had 5 cabin passengers in transit, 4 for the United States and 1 for Habana, all in good health.

No quarantinable disease entered the port during the week, but leprosy is present in the city.

The sanitary condition of the city and surrounding country continues satisfactory.

Month ended April 30, 1907.

Vessels inspected	17
Vessels inspected and fumigated	10
Bills of health issued	27
Crews inspected	881
Crews landed here	5
Crew taken on here	1
Cabin passengers inspected, in transit	5
Steerage passengers inspected, in transit	32
Steerage passengers inspected, landed here	3

The only case of quarantinable disease found in the city during the month is one of leprosy, escaped from the asylum of Santa Clara.

The sanitary condition of the city and surrounding country during the month has been satisfactory.

There were no transactions for the Canal Zone or the Republic of Panama during the month.
